6 Dec 2020
Melbourne, CBD & Inner Suburbs
Full Time
Information & Communication Technology, Architects

We are looking for driven Cloud Solutions Architects to join our team. We are a consulting and managed services company, laser-focused on providing exceptional cloud, cyber security and data solutions to our customers.

We help mid-market and enterprise customers align to the best of breed cloud solutions, with the primary focus on Microsoft Azure and Identity Management & Governance. We also help our Government customers with Essential Eight initiatives.

Are you are a forward thinker and have the ability to see the big picture? Like being ahead of the game? Come and join us!

Key Responsibilities

- Delivery of cloud and cyber security projects
- Work through customer specifications and develop solutions in line with defined requirements – design and/or implement technical solutions
- Author documentation to the highest standard
- Conduct customer meetings and workshops
- Work closely with peers to ensure project delivery meet customer expectations
- Support the creation of reference architectures and new product offerings
- Participate in technical pre-sales activities including proposal creation and peer review

What we are looking for

- Strong knowledge of the cloud ecosystem, with preference to Microsoft Azure
- Domain knowledge in cloud security, network security, security architecture and security operations
- Experience in both designing and implementing cloud & identity related solutions, being IDAM, PAM & IGA
- Experience across cloud technologies, being IaaS, PaaS and SaaS
- Experience working in a consulting company is a must
- Have sound commercial acumen for delivering projects
- Interact and communicate effectively with peers, clients, stakeholders and executives
- A keen eye for detail and passion for delivering exceptional outcomes and customer experience
- Proactive and driven to continually learn security and identity technologies and business best practices, including attaining certifications

The Perks

- Competitive salary
- Training & Certifications – access to online training platforms, exam vouchers & tech sessions
- Flexible working environment
- Monthly team meet-ups – we share our successes, plans and socialise
- Regular team lunches and Friday social events
- Well-stocked fridge, barista-style coffee, fruits and snacks in the office
- Employee Referral Program – refer a friend and receive $$$$ as a big thank you!

Our Culture

We have a start-up feel, with huge focus on our values. We possess the drive to be better through continuous learning, and as a team, we work smart to be creative in generating ideas, ensuring we make our customers successful in the digital world.

We have a fun, collaborative and supportive environment. We enjoy games of billiards in the office. We like our GIFs for a laugh and have a fair bit of friendly banter too. We like our food and drinks, socialising is in our DNA. We also do regular events and host community meet-ups. We back each other and empower everyone every step the way.

We are building our talented team based on teamwork, inclusivity and innovation. It's a work smart, play hard kind of place!

Our Values

Working Together

We embody team spirit to deliver remarkable outcomes in the industry. We respect and support each other promoting open and honest communication, proactively sharing important

information, we listen and are solution-focused.

The Big Picture

We are big picture people who think of ideas, solutions and opportunities. We tackle complex challenges head-on, and think outside the box. We keep focused on the ultimate goal.

Forward-thinking

We think three steps ahead, to ensure we are always on top of what we do.

Drive

We have the attitude to do well and be better, every step of the way. We embrace continuous learning and be ahead of the game. We aim high and take pride on making sure our ideas become a reality.

Positive

We re-define problems as opportunities, with a can-do attitude and the energy to match.

Please attach your resume to be considered for this role.

The application form will include these questions:

- Which of the following statements best describes your right to work in Australia?
- How many years' experience do you have as a solutions architect?
- How many years' experience do you have in a consulting role?
- What's your expected annual base salary?
- How much notice are you required to give your current employer?

Be careful
